

# Lorenzo Kunze, M.E.

Medical and Aesthetic Laser Educator

## Objectives:

*I, like many of you, realize that now is a very special time in the lives of medical and cosmetic professionals - as consumers are requesting, desiring and needing cutting edge technology.*

*Laser procedures are now a common occurrence and professionals need to be properly trained if they are going to survive in our everyday-work place.*

*The opportunity is now in your court, so take full advantage of it... luxuriate in its benefits...learn it correctly and most importantly...*

### **ENJOY, ENJOY, ENJOY life to its' fullest!**

*My present objective is to educate, promote and elevate cosmetic and medical professionals to the top of their fields. Through proper EDUCATION, the marriage of cosmetic and medical applications...will, can and has been a benefit for both the consumer and the allied health professional.*

*I have devoted over 40 years of building a career consisting of cosmetic and medical applications and procedures designed to enhance the electrology, cosmetic and medical profession. By teaching, working and associating with electrologists, aestheticians, physicians and fellow allied health educators', we can see the advantages of developing proper medical protocol. These advancements, benefits and protocols will assist all enhancement specialists' into the new millennium.*

*I have endeavored to be on the cutting edge of medical technology, cosmetic advancements and medical education and at the same time learning, educating and serving the public. Our patients/clients have recognized the psychological, cosmetic and medical rewards that are produced from our works. This has established in us an outstanding image, impeccable credibility and long-lasting confidence that makes it all worth providing.*

*My lifetime objective is to live life to its' very fullest with an equal balance in my family, my work and my God (because of my imperfections...they are not always in that order)!*
